English fine bone china perfectionist, Royal Crown Derby, reveal an industry first with the launch of the Art Glaze Collection.

Extending the technicalities of producing fine bone china, the new Art Glaze Collection showcases the globally renowned brand's innovation and design techniques through the use of a reactive glaze application unseen before on such a pure, translucent material.

The stunning and contemporary Art Glaze Collection has been created to meet consumers' aspirations for the very best luxury casual tableware, which is attainable and functional, as well as being high quality and highly desirable.

Celebrating style and function whilst perfecting a technique of a sprayed reactive glaze finish on to fine bone china.

With the individual hand-applied application, each distinctive piece is produced randomly through effects without method or conscious design during the firing and glaze chemistry to give an all over spray finish in outstanding and on-trend colours.

With the strength and durability of the body, the art glaze technique offers a supreme finish for everyday use.

The Collection is offered on a contemporary coupe shape together with the new 'urban' shape mug and three size cups and saucers, and with twenty items for the ultimate dining experience, the range is offered in four striking colourways, Candied Sky, Clouded Smoke, Flamed Caramel and Pressed Mulberry.
